Chemical and thermal paint stripping

- ✓ We remove it all! - Filler, underbody protection, and insulation mats are no problem (up to 6 meters in length).
- ✓ Extremely thorough yet contact-free paint stripping.
- ✓ Add-on parts made of aluminum can be stripped in solvent-based media.

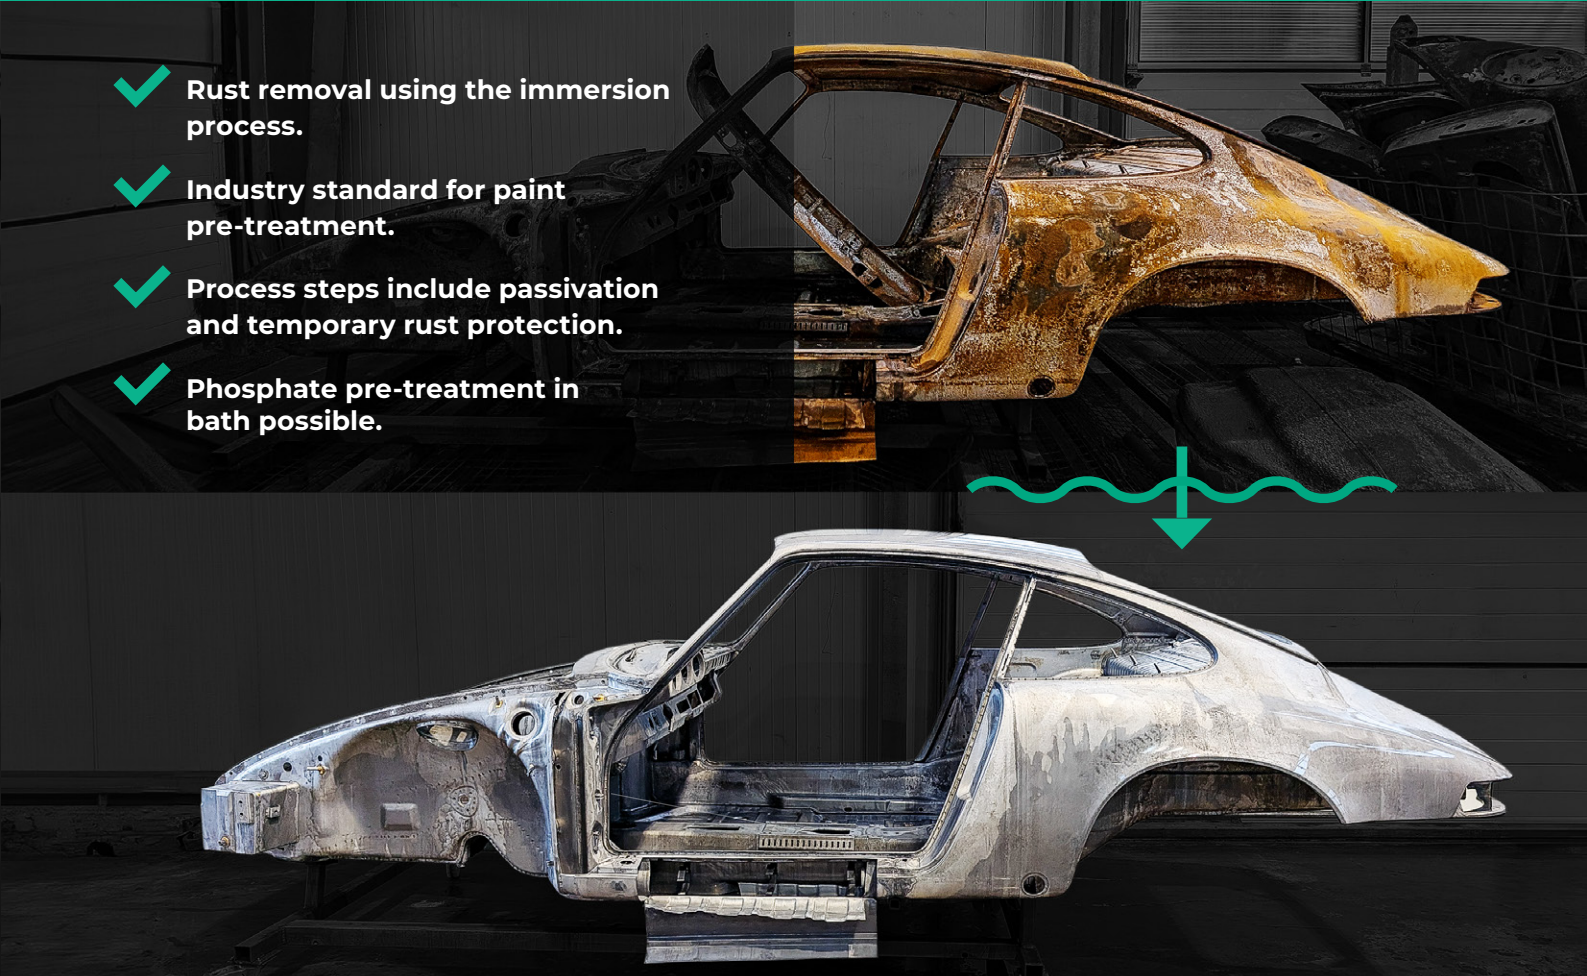

SPECIFICATIONS

- Paint stripping tank: 6 x 2.04 x 2.2 m (LxWxH).
- Weight: max. 5 tons.

Chemical rust removal

- ✓ Rust removal using the immersion process.
- ✓ Industry standard for paint pre-treatment.
- ✓ Process steps include passivation and temporary rust protection.
- ✓ Phosphate pre-treatment in bath possible.

E-coating (cataphoretic dip coating)

- ✓ Long-lasting corrosion protection.
- ✓ Scratch-resistant, resistant to stone chipping and seawater!
- ✓ The coating is free of runs and drips.
- ✓ Perfect base for painting.
